Certifications

- CISCO CERTIFIED NETWORK ASSOCIATE (CCNA)
Sysap Technologies, pune
- CERTIFIED ETHICAL HACKING (CEH)
Sysap Technologies, pune.

Professional Experience

Security Analyst – Nio Stars Technologies LLP

May 2025 – (Present)

Key Responsibilities & Achievements:

- Perform Vulnerability Assessment & Penetration Testing (VAPT) on web applications, networks, APIs, and internal systems.
- Monitor and analyze security events using SIEM tools to identify threats and support incident response.
- Investigate security alerts, conduct log analysis, and assist in remediation activities.
- Document findings with detailed proof-of-concepts (PoC) and provide clear remediation guidance to development and infrastructure teams.
- Conduct security audits, risk assessments, and configuration reviews to strengthen organizational security posture.
- Collaborate closely with cross-functional teams to ensure secure development and timely mitigation of vulnerabilities.
- Participate in improving internal security processes, policies, and automation workflows.

Bug Bounty

Bug Bounty Hunter (Freelance)

Ongoing

Highlights:

- Reported valid vulnerabilities through public and private bug bounty programs.
- Specialized in discovering issues like XSS, SQLi, IDOR, and authentication bypasses.
- Conducted reconnaissance, payload crafting, exploitation, and responsible disclosure.
- Gained real-world exposure to modern web security attack vectors and practical exploitation methods.

Technical Skills

- Security Skills: Threat Analysis, Incident Response Support.
- SIEM & Monitoring: Wazuh.
- Vulnerability Assessment & Pentesting: Web App Testing, Network Pentesting, Reconnaissance, Exploitation.
- Security Tools: Burp Suite, Nmap, OWASP ZAP, Metasploit, SQLmap, Project discovery (PDTM)
- Bug Bounty Skills: OWASP Top 10, XSS, SQL Injection, IDOR, CSRF, SSRF
- Frameworks & Standards: OWASP Top 10.
- Reporting: PoC Documentation, Risk Rating, Remediation Guidance.

Soft Skill

- Strong analytical thinking
- Problem-solving
- Detail-oriented approach
- Clear report writing and communication
- Team collaboration
